

Dnyaneshwar Kokate

Dot Net Developer

dnyaneshwarkokatevip@gmail.com — +91-9021852833 — Pune, India — 1+ Year Experience

Profile Summary

Results-driven **.NET Developer** with 1+ year of experience in building scalable web applications using ASP.NET Core, C#, and Angular. Skilled in REST API design, Clean Architecture, database optimization, and secure JWT-based access control. Adept at leveraging modern AI-driven tools to accelerate software delivery and debugging.

Key Skills

ASP.NET Core Web API	Clean Architecture	ADO.NET / LINQ	Entity Framework
C# (.NET)	HTML5 / CSS3	JavaScript / ES6	SQL Server (T-SQL)
REST API Design	JWT Security	Angular	Design Patterns
Git / GitHub	Swagger / OpenAPI	Postman	CI/CD
Web Development	Windows App Dev	Dependency Injection	Agile / Scrum

Work Experience

Dot Net Developer - Electropneumatics

May 2025 – Present

- Architect and develop scalable web applications utilizing **ASP.NET Core**, **C#**, and **SQL Server**.
- Implement **MVC** and **Clean Architecture** patterns to build modular, maintainable, and testable codebases.
- Design and maintain secure, high-throughput **RESTful APIs** integrated with JWT-based role authorization.
- Optimize database performance by tuning Entity Framework Core query tracking and refactoring SQL queries.

Dot Net Core Developer - Intern Choice

Nov 2024 – Apr 2025

- Developed and optimized backend features for web applications using **ASP.NET MVC** and **Entity Framework**.
- Wrote clean, maintainable C# code adhering to SOLID design principles and OOP standards.
- Collaborated with cross-functional development teams to build features and resolve database query bottlenecks.

Projects

Employee Management System

- Engineered a secure, full-stack Employee Management System utilizing **ASP.NET Core Web API** and **Angular**.
- Implemented **JWT Authentication** and granular **Role-Based Access Control (RBAC)** to protect sensitive system operations.
- Applied the **Repository Pattern** and **Dependency Injection** to maintain a loosely-coupled, highly-testable architecture.

Student Management System

- Developed a robust Student Management REST API using **ASP.NET Core**, **Entity Framework Core**, and **SQL Server**.
- Structured the project using **Clean Architecture** concepts, decoupling data models using **DTOs** and **AutoMapper**.
- Managed database schemas with **EF Core Migrations** and documented/tested endpoints using Swagger and Postman.

Education

B.Tech/B.E. Information Technology

Pune University
